## How to Rise and Shine When Shift Happens

“Shift happens.” – Proverb

Every day, every person experiences changes that impact how we live our lives. Some changes we see as helping us, others we see as hindering us. These shifts happen in our home life, our work life, and everywhere in between. Simply put, *AdaptAbility* is the skill we use to adjust to these new conditions and situations. As we grow and evolve, we realize that building our AdaptAbility will engage, equip, and empower us to live better lives.

When shift happens, the challenge (and the choice) to adapt is yours - will you be ready?
